The copy filmed here has been reproduced thanks to the generosity of:

Izaak Walton Killam Memorial Library
Dalhousie University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Izaak Walton Killam Memorial Library
Dalhousie University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

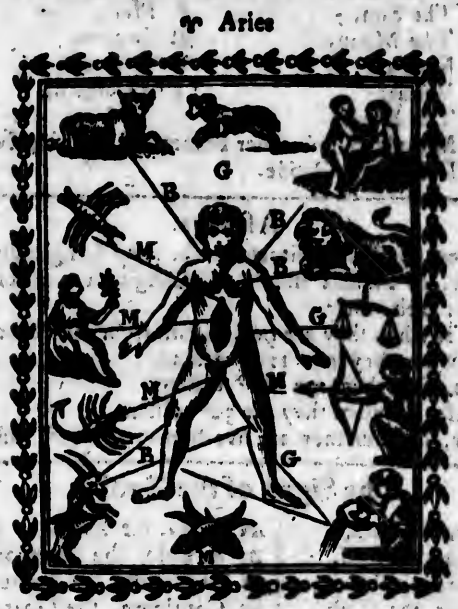
THE 18th of this month, anno 1546, died that famous Reformer, LUTHER, who struck the great blow to papal tyranny in *Europe*. He was remarkably *temperate* in meat and drink, sometimes fasting four days together; and at other times, for many days eating only a little bread and a herring. *Cicero* says, *There was never any* great *man who was not an industrious man*; to which may, perhaps, be added, *There was never any* industrious *man who was not a* temperate *man*: For intemperance in diet, abates the vigour and dulls the action of mind and body.

IN studying law or physic, or any other art or science, by which you propose to get your livelihood, tho' you find it at first hard, difficult and unpleasing, use *diligence*, *perseverance*: the irksomness of your task will thus diminish daily, and your labour shall finally be crowned with success. You shall go beyond all your competitors who are careless, idle or superficial in their acquisitions, and be at the head of your profession.—*Ability* will command *business*—*business*, *wealth*; and wealth an easy and honourable retirement when age shall require it.

The Names and Characters of the Twelve Signs.



☞ ♀ Venus, will be Evening Star, the 1st Day of January, then Morning Star, to the 15th Day of October.—Thence Evening Star, to the End of the Year.

♃ Jupiter, will be Evening Star, until the 4th Day of January, then Morning Star, to the 24th Day of July, and thence Evening Star, to the End of the Year.

HE who would out-live his next heir, must rise by times, and walk abroad in the fields: your feet and head in dew is wholesomer than under the sheets; but he that walks with bad company had better stay at home.

A Rich farmer's son, who had been at the university, coming home to visit his father and mother, and being one night at supper with them on a couple of fowls, he told them, that by *logic* and *arithmetic*, he could prove those two fowls to be three. Well, let us hear, said the old man. Why, this, cried the scholar, is *one*, and this, continued he, is *two*; two and one, you know, make three. *Since you have made it out so well*, answered the old man, *your mother shall have the first fowl, I will have the second, and the third you may take for your great learning.*
